AutoCAD is supported on computers running Windows, Linux, macOS, iOS, Android, and other operating systems. It can also be used on iPads, iPhones, and other mobile devices. In 2003, Autodesk launched AutoCAD LT (with the two products being linked) and, in 2009, AutoCAD WS (with the two products being linked again). AutoCAD WS is available as both a stand-alone app and as a component of AutoCAD. AutoCAD features the following: Drafting tools such as line, arc, curve, polyline, spline, area, text, and picture editing; object creation and manipulation; 3D geometry; and design-for-manufacturing tools Collaboration tools such as drawing merging, annotations, and comments A specialized rendering engine, allowing users to view or print AutoCAD drawings in a variety of graphics, styles, and file formats Synchronization tools for integrating and sharing drawings with others The AutoCAD/Autodesk Add-ons and Extensions (AAX) platform AutoCAD is a subscription-based product (1 to 3-year subscription). AutoCAD LT and AutoCAD WS are commercial desktop apps (not subscriptions). Supported Languages & Platforms AutoCAD is available in 28 languages: Arabic Bulgarian Czech Chinese (simplified) Chinese (traditional) Danish Dutch English Finnish French German Greek Hebrew Hungarian Italian Japanese Korean Norwegian Polish Portuguese Russian Serbian Slovak Spanish Swedish Thai Turkish Ukrainian All AutoCAD products are available in English only. All AutoCAD products are available in English only. User Interface & Interface Languages One of AutoCAD's main focuses has been making drafting and design work easy. As part of this, AutoCAD aims to make its user interface (UI) as easy as possible to understand and use. To do this, it has several main interfaces: Drafting Interface: A simpler version of AutoCAD's user interface used for editing and creating two-dimensional

To determine the activity of combination docetaxel and gemcitabine in advanced breast cancer and to determine the dose-limiting toxicities (DLTs). Thirty-three patients with untreated metastatic breast cancer received treatment in a phase II study. Two dose levels of the combination were studied: 100 mg/m² of docetaxel and 1000 mg/m² of gemcitabine (LD) and 75 mg/m² of docetaxel and 1250 mg/m² of gemcitabine (HD). All patients were eligible for response assessment and were evaluable for toxicity. All patients experienced at least one adverse event, but the proportion of patients experiencing grade 3 or 4 events was as follows: anemia, 52%; neutropenia, 63%; nausea/vomiting, 47%; stomatitis, 30%; and neuropathy, 13%. The number of episodes of grade 3 or 4 stomatitis and neuropathy was significantly increased with the HD dose compared to LD. Six patients experienced

DLTs, which were stomatitis (grade 4) and nausea/vomiting (both grade 3). Stomatitis was dose-limiting for the HD dose and was correlated with initial chemotherapy, increased age, and the use of corticosteroids. The combination of docetaxel and gemcitabine was well tolerated, and overall response a1d647c40b
