All systems. 1. Online Inventory & Stock Inward Outward Reporting. Get Invoice, Vat / Sales Tax Rates. Create Purchase Orders. Stock Control Excel Spreadsheet. Microsoft excel data entry Inventory (accounting) Category:Accounting software De:Excel-SoftwareQ: AngularJs: error after loading $http.get I'm learning AngularJS, and I have a problem with $http.get. I start with the default sample example at: I tried to add the calls to $http.get. For example, I added the following to the script.js: $http.get('js/data.json').success(function (data) { $scope.data = data; }); When I load the page, I get: Uncaught SyntaxError: Unexpected identifier The line of interest: $scope.data = data; (I also tried $scope.data = data; and, e.g., $scope.data.title = data.title) What am I doing wrong? A: You can't write the function in the success callback. Only angular expressions are allowed there. I'm not sure what you're trying to do, but I believe this is what you're after: $http.get('js/data.json').success(function (data) { $scope.data = data; }); "You're going to be out in the open," Simms said. "A lot of the city streets are not fully done with the initial construction." Even if the city repaves streets, they could need "repairs or maintenance" within months, said Mo Farah, president of the National Sports Centre. The centre owns the area from 15th Avenue and Garry Owen Drive to Avenue Road and 34th Avenue. It also owns the lanes on Ashley Street at the south end of the Nelson Mandela Bridge. The centre wants the city to open the sections of road when construction is complete. "The city needs to get the road opened up," Farah said. "Otherwise we're going to have closures and delays." The city will need to open 4bc0debe42
