Edible ink for PrintPen, safe for printing onto Food and Beverages

This edible ink cartridge is compatible with [PrintPen](#).

Item Specifications:

- Volume: 20ml
- Imprint Yield: 7000 imprints (26mm*50mm, 40% coverage)

Product Description:

This edible ink cartridge is designed for printing onto food and beverages. Its main ingredients are water-based with edible colorants, containing no alcohol or animal products, making it perfect for edible printers.

Food:

The food should be solid and absorbent, such as:

- Bread
- Cookies
- Pancake
- Muffin
- Cheese

Beverage:

The beverage should be thick or have a topping to carry the print, such as:

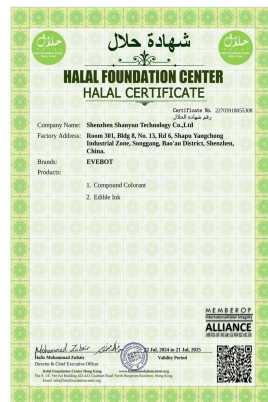

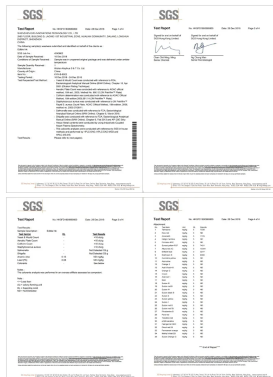

- Yogurt
- Milk Shake
- Coffee (e.g., Latte)
- Beer with bubbles

Food Safety Assurance:

This product has obtained multiple food safety certifications, ensuring it is safe for printing on both food and beverages. Key certifications include FDA Certificate, SGS Food Hygiene & Safety Report, and Halal Certification, all of which verify that this edible ink meets international safety standards for direct food and beverage contact. More information at [Edible Ink Safety Information](#) page.
